

**BENZENE CONCENTRATION  
IN NISKU BRINES (Alberta)**

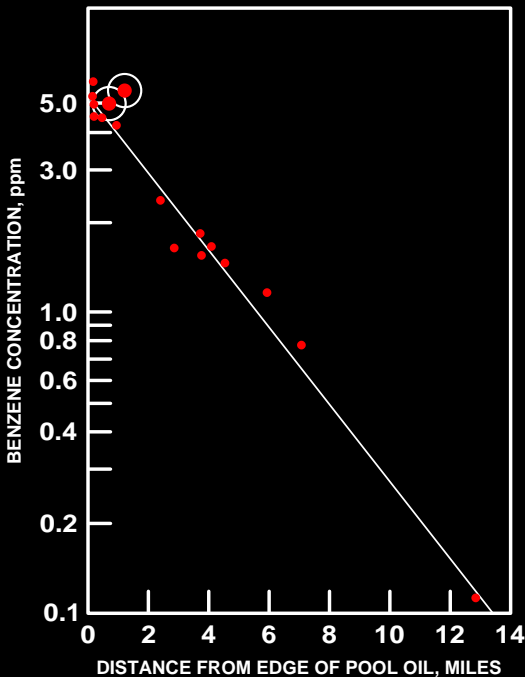

Non-productive exploration well is located 6 miles from known production although a benzene in brine content of 5 ppm predicts production within about 1 to 2 miles.

(after Jones, 1984)

**NISKU OIL FIELDS  
Stettler Region**

**BENZENE CONCENTRATION  
IN NISKU BRINES (Alberta)**

New production confirms predicted distance to production of 1 to 2 miles from non-productive test well.

(after Jones, 1984)

**NISKU OIL FIELDS  
Stettler Region**
